#### **I. Shareholders' General Meeting that adopted the Profit Distribution Plan**

On 12 November 2025, the Fourth Extraordinary General Meeting in 2025 of the Company reviewed and adopted the Profit Distribution Plan.

#### **II. Profit Distribution Plan**

1. Distribution year: the First Three Quarters of 2025

2. Distribution range:

All shareholders of the Company registered in China Securities Depository and Clearing Corporation Limited Shanghai Branch (hereinafter referred to as the "CSDC SH Branch") after the closing of Shanghai Stock Exchange (SSE) on the date of share registration.

According to the regulations in the *Guidelines No.7 for the Self-regulation of Companies Listed on Shanghai Stock Exchange – Repurchasing Shares*, the shares in the special account of the repurchase are not entitled to enjoy dividend distribution.

3. Differentiated Dividend Distribution Plan:

(1) Differentiated dividend distribution plan

In accordance with the Profit Distribution Plan on the First Three Quarters of 2025 approved by the Fourth Extraordinary Shareholders' Meeting held on 12 November 2025, the company intends to distribute a cash dividend of RMB 0.34 per share (inclusive of tax) to all shareholders. Should there be any change in the company's

total share capital minus the shares in the repurchase special securities account due to the grant of shares under the 2025 A-Share Restricted Share Incentive Scheme prior to the date of share registration for the equity distribution, the company will keep the per-share distribution ratio the same, with a corresponding adjustment to the total distribution amount.

As of 27 November 2025, the company's total share capital stands at 2,078,995,649 (comprising 1,344,275,649 A-shares and 734,720,000 H-shares). After deducting the 2,578,000 A-shares (representing 0.12% of the total share capital) held in the company's repurchase special securities account, the remaining shares will serve as the basis for the cash dividend distribution of RMB 0.34 per share (inclusive of tax) to all shareholders. Shares held by the company through the repurchase special account will be excluded from this profit distribution.

## (2) Calculation of ex-dividend ex-right of the differentiated dividend distribution

According to *Trading Rules of the Shanghai Stock Exchange*, the opening price after ex-dividend and ex-right can be referred to as follows:

Reference price after ex-dividend (ex-right) = (closing price of the share registration day - cash dividend)  $\div$  (1 + change ratio of the tradable shares)

There are no bonus shares or capital reserve transferred to increase share capital in this profit distribution, therefore the change ratio of the tradable shares is 0. Therefore:

Reference price after ex-dividend (ex-right) = (closing price of the share registration day - cash dividend)  $\div$  (1 + change ratio of the tradable shares) = (closing price of the share registration day - cash dividend)  $\div$  (1 + 0) = closing price of the share registration day - cash dividend.

In light of the company's implementation of a differentiated dividend distribution, the calculation of the cash dividend per share and the change ratio of the tradable shares in the aforementioned formula is based on the total share diluted adjustment. The computation is as follows:

Cash Dividend Per Share = (total shares entitled to distribution  $\times$  actual cash dividend per share)  $\div$  total number of shares = (1,341,697,649  $\times$  0.34)  $\div$  1,344,275,649  $\approx$  0.34 Yuan per Share.

Consequently, the reference price after ex-dividend (ex-rights) = (closing price of the share registration day - cash dividend)  $\div$  (1 + change ratio of the tradable shares)

= (closing price of the share registration day - 0.34)  $\div$  (1 + 0) = closing price of the share registration day - 0.34 Yuan per Share.

## IV. Implementation method of dividends distribution
